
WHY CHOOSE TUTORING?

Tutoring has proven to be effective if you choose **the right** tutor. Many companies and individuals claim to offer tutoring, but most programs are ineffective. At Tutor for Good, we offer customized solutions. Our tutors can quickly assess your individual needs, **regardless** of whether you are being tutored online or in person.

OUR TUTORS

Tutor for Good is different from other tutoring companies. Our tutors exceed the industry's standard for instruction. All of our tutors have at least a bachelor's degree and teaching experience. In addition, every tutor undergoes a double background check, and specialized training, to ensure that only the best make it. For us, education and experience isn't an option, it's a requirement!

AT FEES YOU CAN AFFORD

Whether it's for No Child Left Behind, or for personal reasons, our tutoring can often save your institution more than the cost of other companies alone.

NO CHILD LEFT BEHIND?

Or so we think? Truth is, the field of education is both tough and competitive. Classrooms are filled to capacity, teachers are overworked, and there is often not enough time in the school day to get everything covered, reviewed, and reinforced. The end result? High drop-out rates and under-prepared students.

At the end of the day, no program, private or public, can substitute for the involvement and intervention of a parent. But for parents with a busy schedule finding the time to help “Robert and Sally” with their homework can be challenging. At Tutor for Good we understand that today’s parents have to juggle a double load of both a career and home. We offer **real solutions and services** to ensure that your child doesn’t get left behind!

National reports show that 30% of all students in public high schools do not graduate. This percentage is much higher for minority students in urban areas.

COMMON SYMPTOMS

The following are indicators that your child may need tutoring:

1. **An inability to grasp new concepts**

When a student barely passes one class, and then moves on to a higher, harder level, the results can be disastrous unless a tutoring intervention is taken.

2. **Short attention span**

This is often caused by the teacher’s method of conveyance. Here at Tutor for Good, we work with your child by portraying the same information in different ways to ensure that our students really understand it.

3. **Silly, repetitive mistakes**

This is often caused by students who forget to carefully examine the methods that they are using to solve problems. At Felicity Motivational, we teach our students organizational and analysis skills to ensure that they don’t make they don’t make the same mistakes again.

4. **Anxiety**

When one starts to fear a subject; the result is a lack of confidence in the subject matter. Symptoms of anxiety include nausea, and a sudden loss of memory in regards to formulas and concepts.
